DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Hauber on October 17, 2005.

The application has been amended as follows:

In claim 7 line 8, “.” has been deleted and –wherein the length of tape comprising a leader portion fixed to the core, a foam support position and a usable tape portion, the foam support portion positioned after the leader portion and before the usable tape portion; and a compressible foam strip fixed to the tape foam support portion.—has been added.

In claim 16 line 8, “.” has been deleted and –wherein the length of tape comprising a leader portion fixed to the core, a foam support position and a usable tape portion, the foam support portion positioned after the leader portion and before the usable tape portion; and a compressible foam strip fixed to the tape foam support portion.—has been added.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: The prior art, Schonhorns et al. discloses an adhesive tape product comprising a hollow cylindrical core (figure 5 number 10) having a diameter and a width, and an outer surface a compressible foam strip surrounding the core (figure 5 number 60), and a length of adhesive tape having a uniform width and a length substantially greater than the width wound in several forms about the core and the foam strip (col. 5 lines 9-12). Schonhorns et al. fail to teach a leader portion fixed to the core, a foam support portion, and a usable tape portion wherein the foam portion is located after the leader portion and before the usable tape portion. The final rejection was based on an obvious equivalent function of applicant's invention in view of the prior art Schonhorn. However, in response to the final rejection, applicant filed an appeal brief arguing that the appellant is claiming a specific structure and not a function. Therefore, in view of appellant's arguments, the prior art fail to teach or suggest a leader portion fixed to the core, a foam support portion, and a usable tape portion wherein the foam portion is located after the leader portion and before the usable tape portion. Furthermore, applicant agreed to file a terminal disclaimer over copending application 10416597 to avoid a future obvious double patenting rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jane Rhee whose telephone number is 571-272-1499. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick Ryan can be reached on 571-272-1292. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
